User Control & Freedom

Some of our main issues came with control and freedom. Mainly that there was no back button so if I went to the store, or any other page that wasn't part of the front page, then our user would no longer be able to return to the app. Additionally, our user couldn't log out of the application in case their friends or anyone else wanted to use the application on the device.

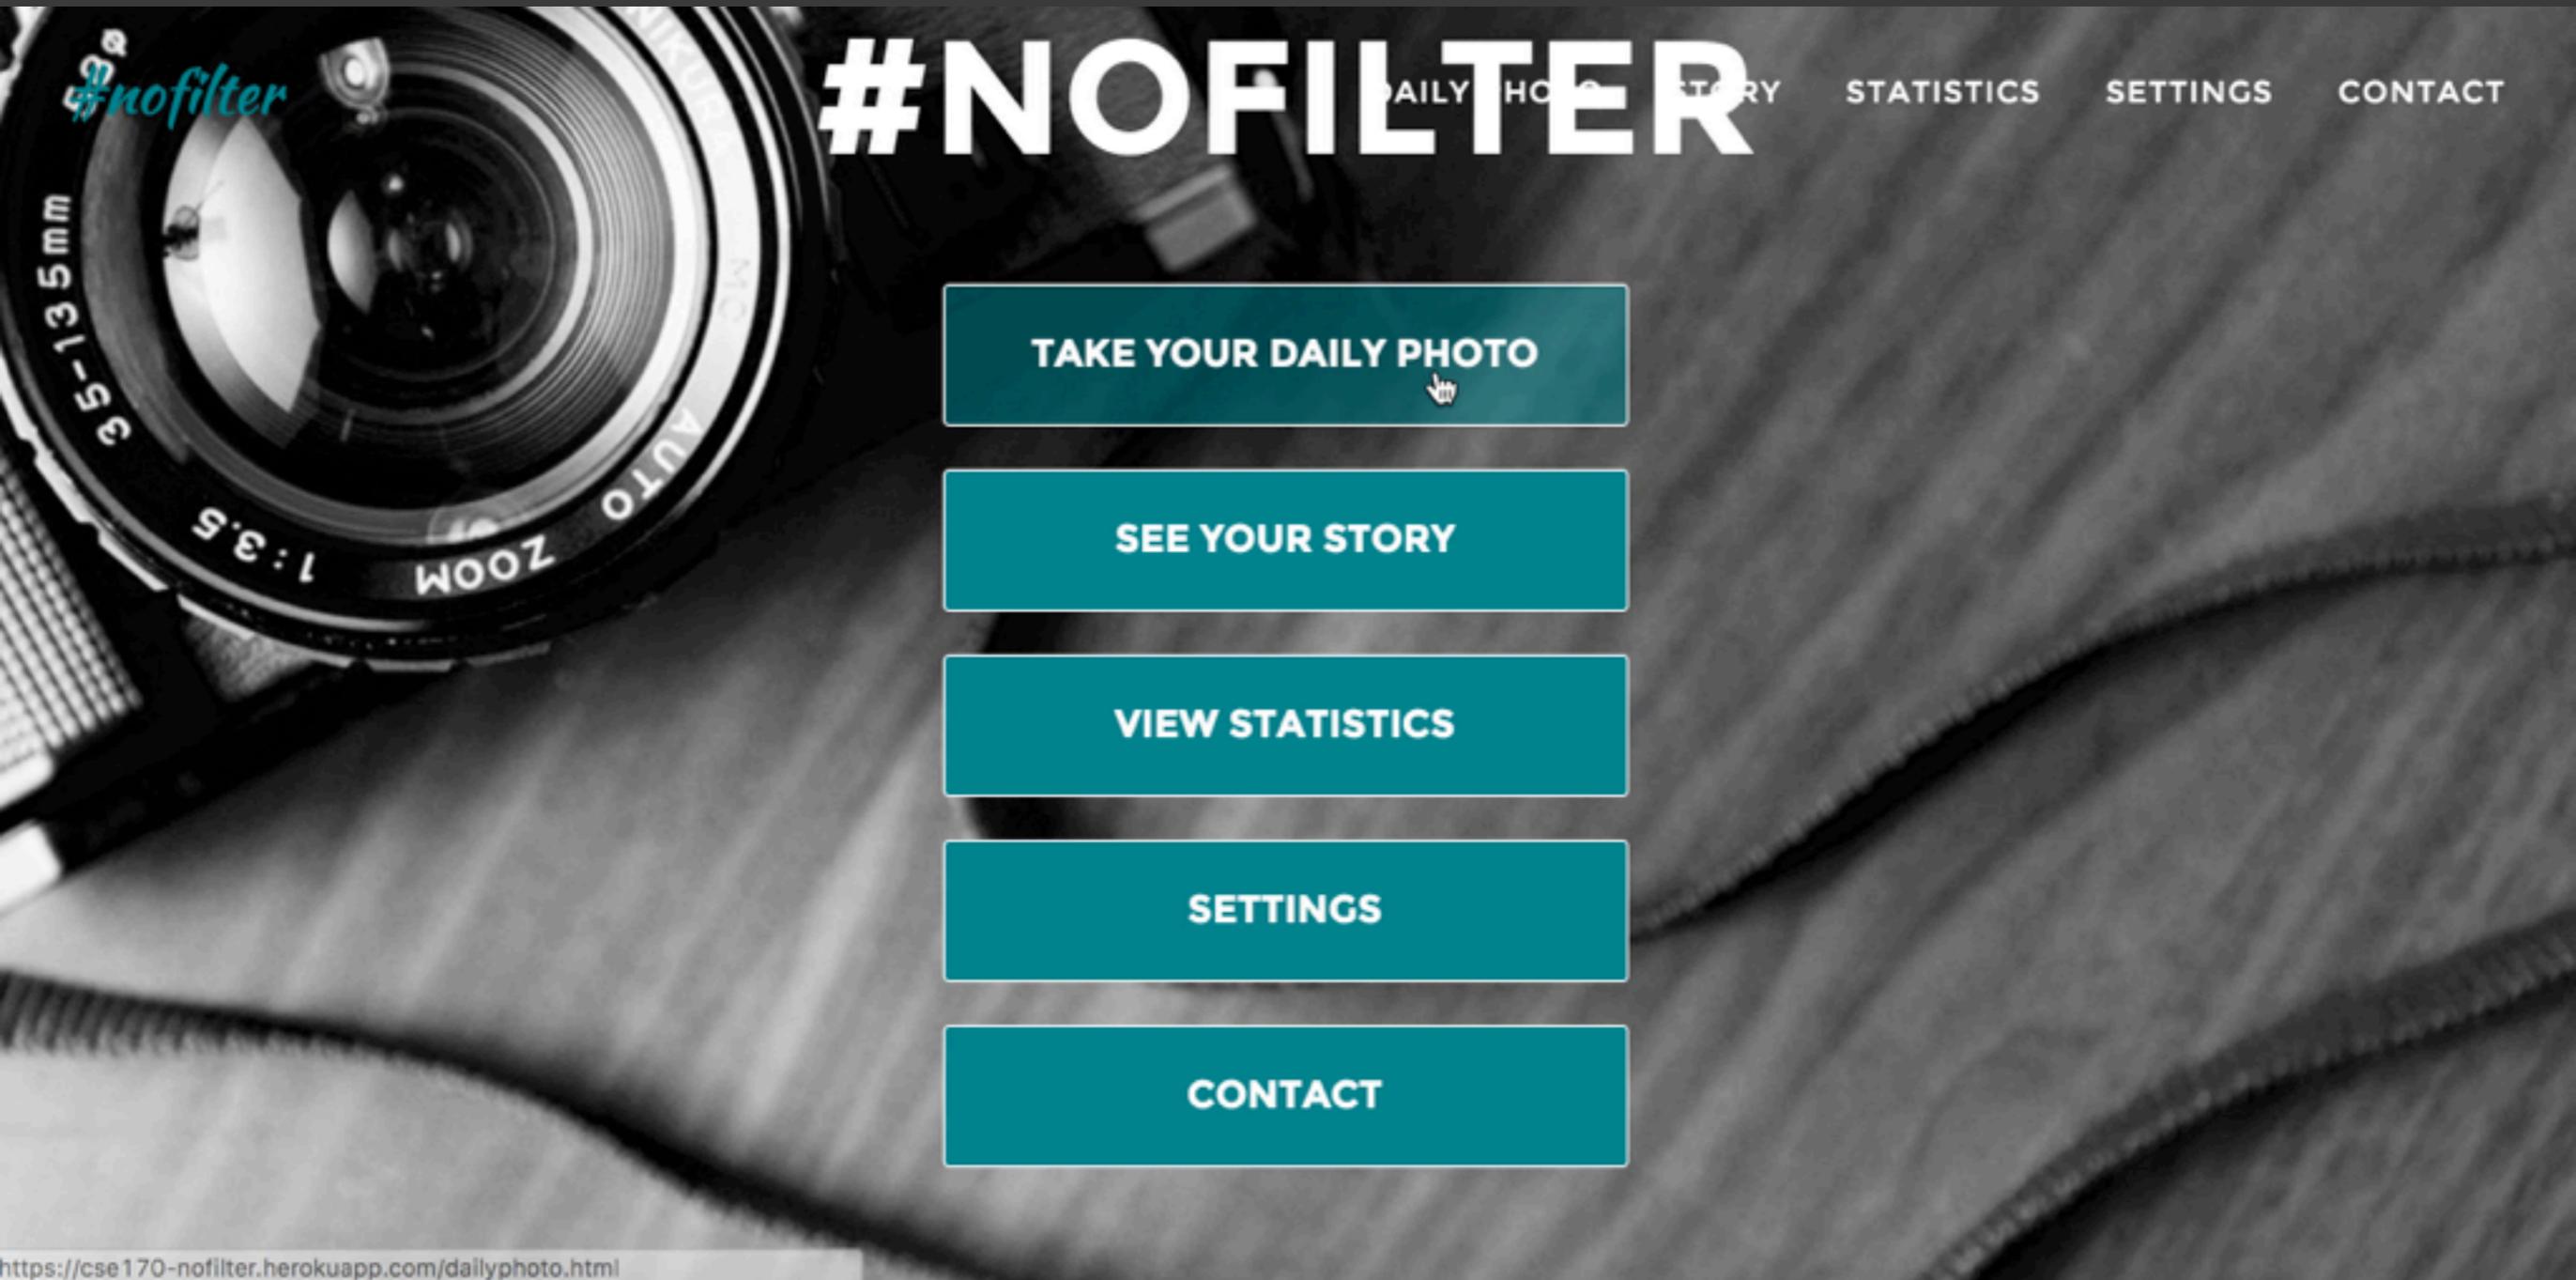

Solutions:

1. We plan on creating a back button in the same place on the application and on the home page where first login. This way the user will always have a standard place he/she knows to click in order to backtrack through the app and ultimately successfully navigate it.

Chonlada Woointranon, Young Jin Yun, & Arvind Kalathil

What's wrong with this interface?

The screenshot shows a web browser window with the following elements:

- Browser Title Bar:** "Welcome"
- Address Bar:** "webtixs.easytixs.com/SundanceKabuki/TicketingStartPage.aspx?634229118899241250"
- Shopping Bag Icon:** A yellow shopping bag icon in a white box, centered at the top.
- Section Header:** "KABUKI" in bold black text, followed by a large, faint "&" symbol, and "Tickets & Showtimes" in blue text.
- Gift Card Information:** A dark red header with the text "Gift Card Information". Below it, the text "Gift Card Number:" is followed by a white input field. A dark red "LOGIN" button is positioned below the input field.
- Search Options:** The text "PLEASE SELECT A SEARCH OPTION" is followed by three columns of search options, each with a "GO" button:
 - Option 1:** "For Today's Schedules or to Purchase Tickets for Today" with a "GO" button.
 - Option 2:** "For Future Schedules or to Purchase Tickets for a Future Date" with a "GO" button.
 - Option 3:** "Search" with a "GO" button.

What to do with CAPITALS in your text? SMALL CAPITALS are the best solution. If they aren't available, reduce the point size of the full-size CAPITALS slightly and letterspace so they aren't crashing into each other.
capitals attract too much attention and break up the text

What to do with CAPITALS in your text? SMALL CAPITALS are the best solution. If they aren't available, reduce the point size of the full-size CAPITALS slightly and letterspace so they aren't crashing into each other.
small caps are designed to work with lowercase letters

What to do with CAPITALS in your text? SMALL CAPITALS are the best solution. If they aren't available, reduce the point size of the full-size CAPITALS slightly and letterspace so they aren't crashing into each other.
if you don't have small caps, set full-size caps smaller

Form alignment

JAN TSCHICHOLD

Asymmetric Typography

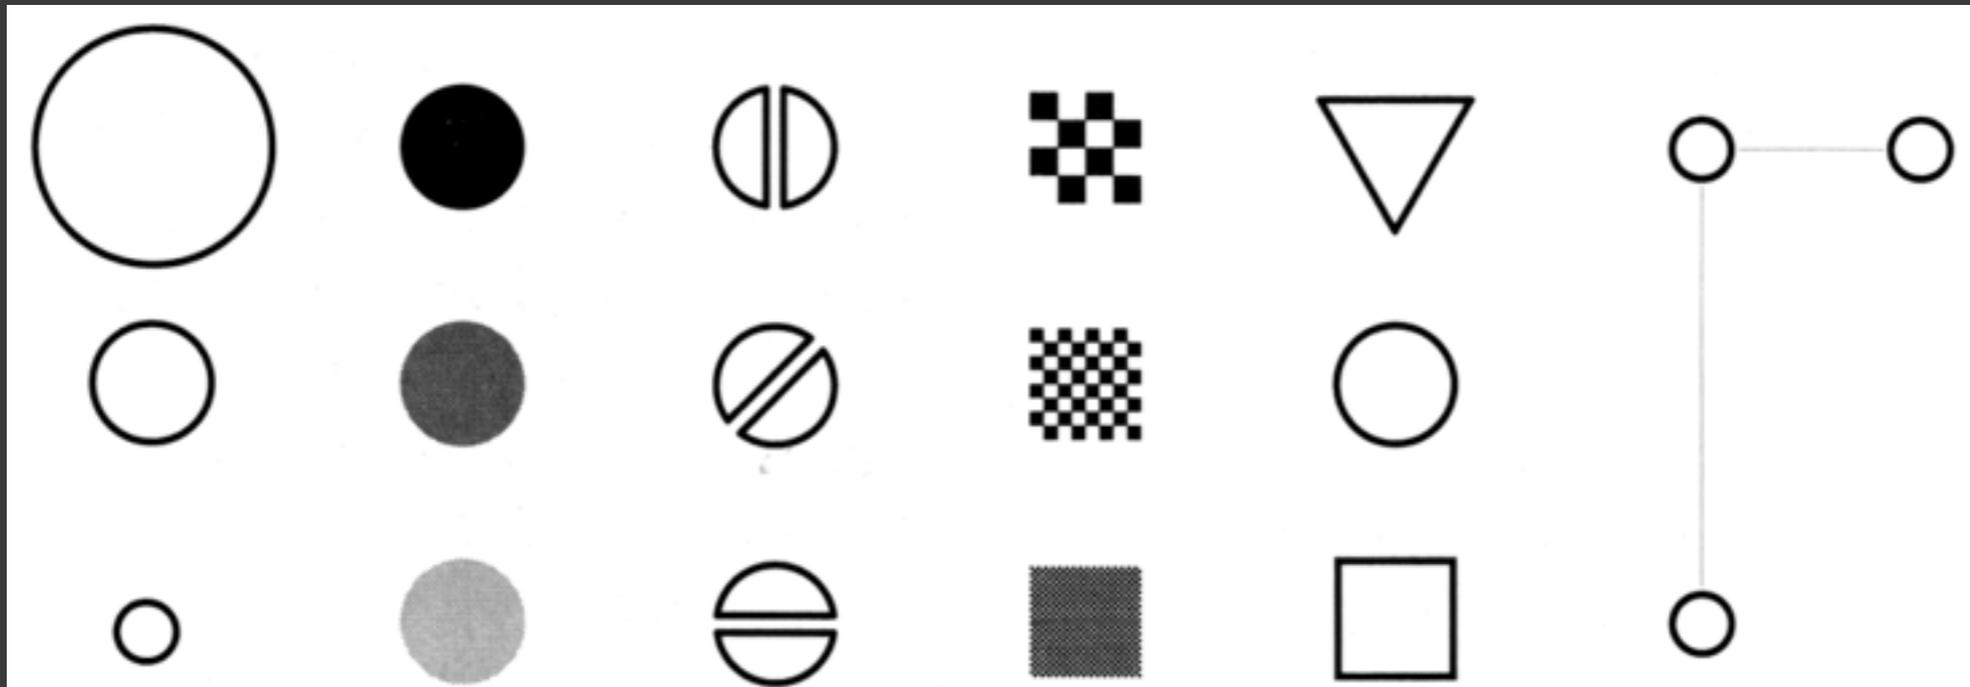

How blocks used to be arranged in magazines. Schematic, thoughtless centering of blocks (= ugly).

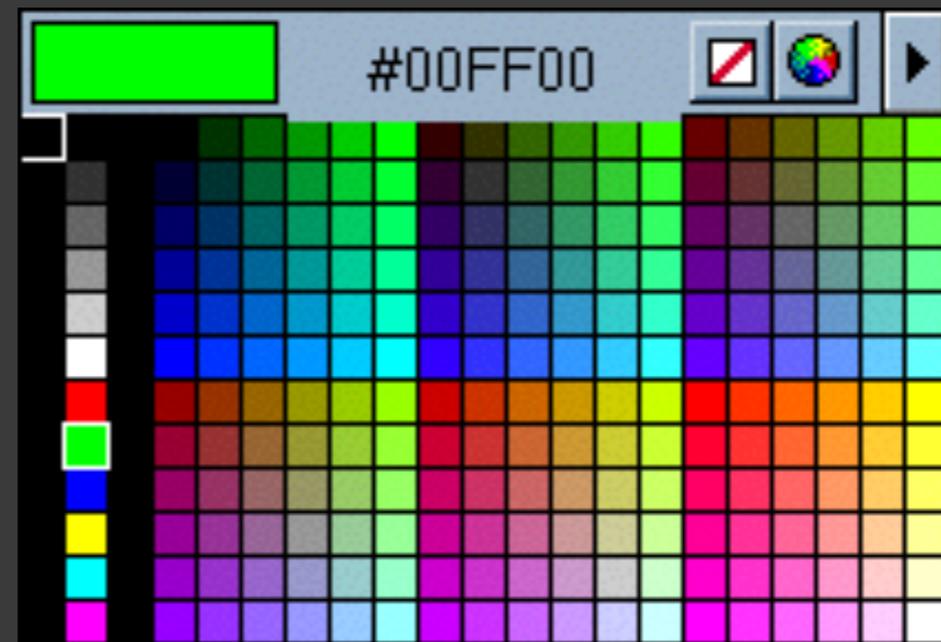

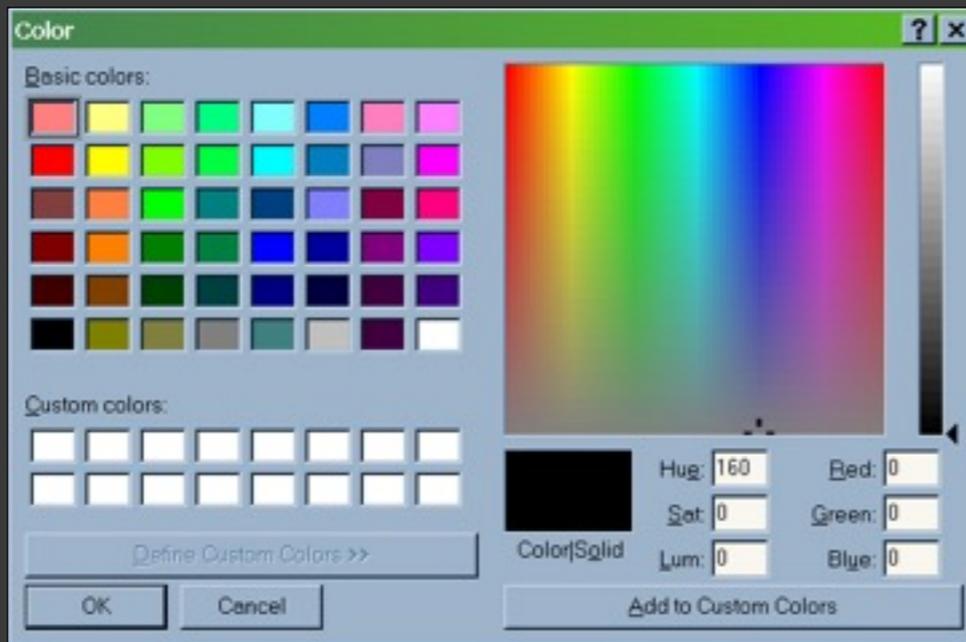

The same blocks, correctly arranged in the same type-area. Constructive, meaningful, and economical (= beautiful).

Proportion and Scale

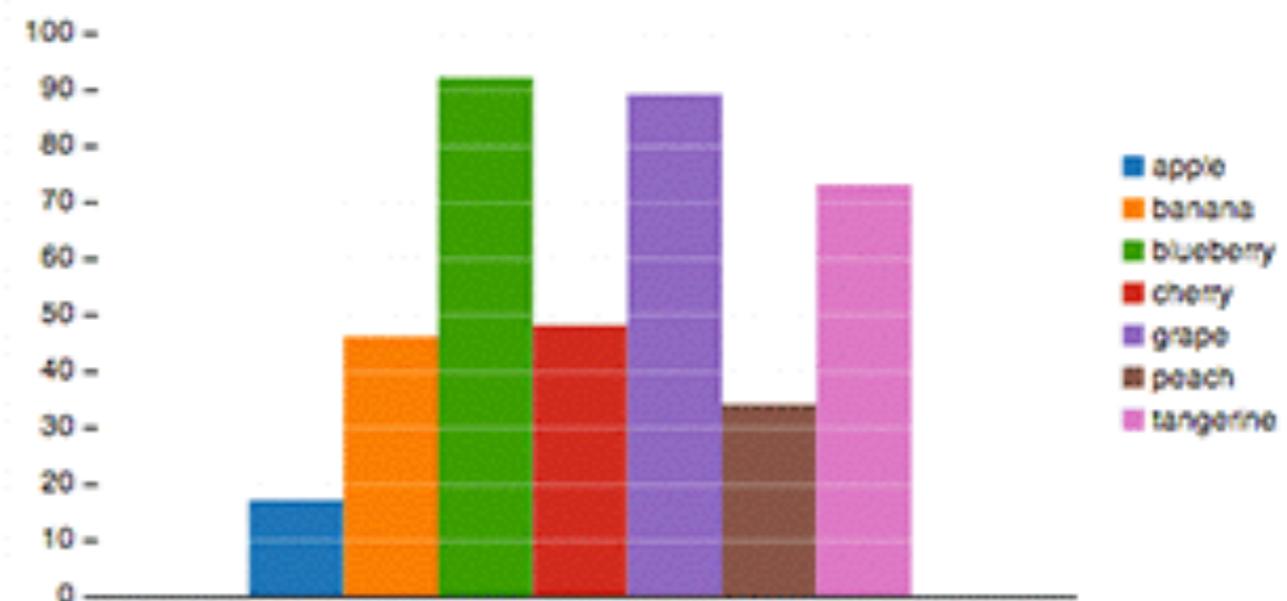

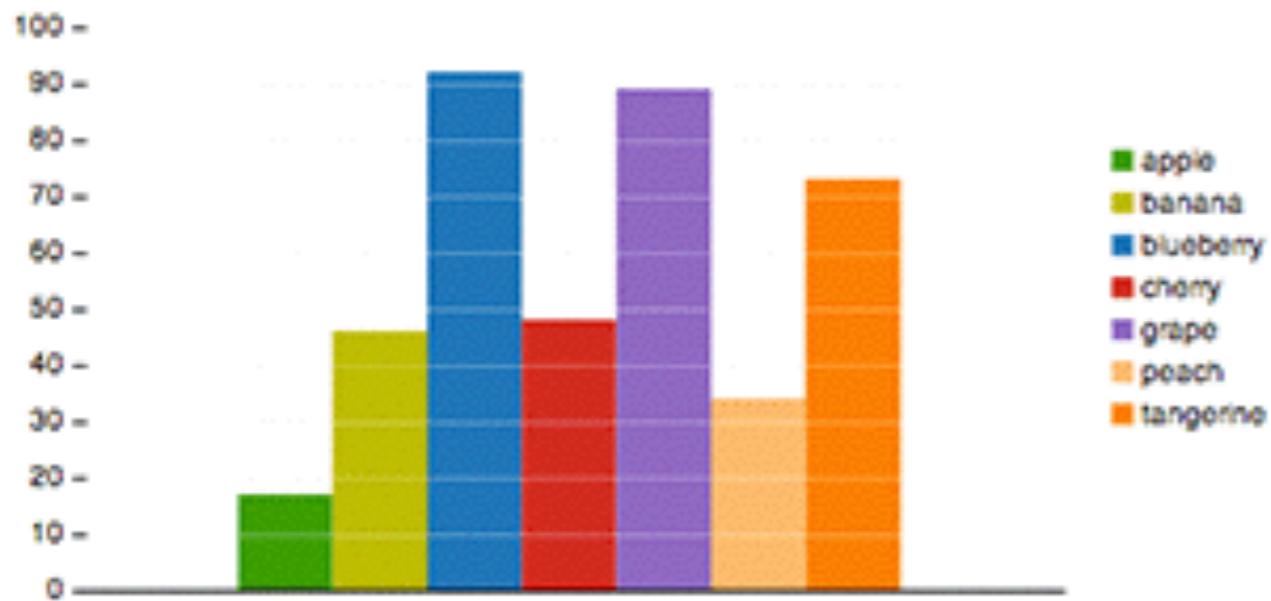

52: Bertin's "retinal variables" form the basis for all forms of visual coding. A visual code can be based on (from left to right) contrasts in *size*, *value*, *orientation*, *texture*, *shape*, or *position* in 2D or 3D space. *Hue* (chromatic color) provides an additional dimension not pictured here.

DANS, KÖN OCH JAGPROJEKT

På jakt efter ungdomars kroppsspråk och den "synkretiska dansen", en sammansmältning av olika kulturers dans, har jag i mitt fältarbete under hösten rört mig på olika arenor inom skolans värld. Nordiska, afrikanska, syd- och östeuropeiska ungdomar gör sina röster hörda genom sång, musik, skrik, skratt och gestaltar känslor och uttryck med hjälp av kroppsspråk och dans.

Den individuella estetiken framträder i kläder, frisyrer och symboliska tecken som förstärker ungdomarnas "jagprojekt" där också den egna stilen i kroppsrörelserna spelar en betydande roll i identitetsprövningen. Upphållsrummet fungerar som offentlig arena där ungdomarna spelar upp sina performanceliknande kroppsshower

'RESPIRO'

Drama. Starring Valeria Golino and Francesco Casisa. Directed by Emanuele Crialese. (PG-13. 90 minutes. In Italian and Sicilian with English subtitles. At Bay Area theaters.)

"Respiro" is partly of interest for what it doesn't do. It's set on an Italian island south of Sicily, but it doesn't try to imbue the setting with romance. It's about a sexy young wife and mother who doesn't fit in with her neighbors, but the movie is not an indictment of village provinciality. She may be the prettiest and liveliest person on her island, but she is also a bit crazy.
